ABOUTUS

About Us

We understand the struggle

Easyspad is a *humanized tech-enabled E-Decentralised Warehouse* in Southeast Asia that provides total logistic solutions (
storage, packing & deliveries), ensuring a hassle-free & automated experience for all businesses of all sizes.

Easyspad's inventory management system (*ERP & WMS*) will assist clients to automate their back-end operation such as inventory management, customisable packing solutions & *multiple delivery options* based on clients' requirements.

This all-in-one Ecosystem benefits our users to enjoy competitive rates, increase in efficiency, reducing back-end hassles and encourages businesses to automate order fulfillment process.

- 4. Flexible Storage Space

WE KNOW WHAT BRANDS TRULY CARE ABOUT

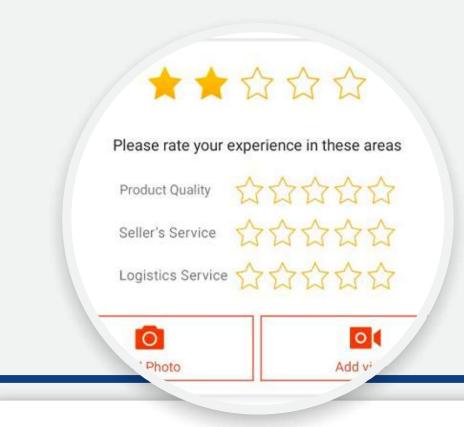

Common Hassle You May Face

- Returns and repairs not properly handled
- Products go missing, stolen
- Long processing hours for inbound goods
- Wrong item shipped out
- Double item shipped out

Inefficiency in Operation

- No support channel from platforms / couriers
- Lack of security and risk management no insurance coverage, no compliance
- Shop penalties affecting sales
- Ineffective communication avoids problems and issues from sellers

- Price does not match service quality
- Operates from small, home-based warehouses with no SOP on handling goods, no racking systems, and unable to scale operations
- Expansion constraints warehouse overcapacity, making it difficult to scale

Your Brand May Be At High Risk

Choosing the wrong warehouse may lead to:

Lost in Inventory and Profit

Store Rating Drops, Store Sales Drops

Return Parcel Not Handled On Time

Warehouse too Small, Unable to Scale

OUR ADVANTAGE
